REPORT OF TRUSTEES OF PUBLIC LIBRARY.

The thirty-sixth report of the trustees is herewith presented.

A new and more modern charging system has been installed in the library. This necessitated changing the librarian's desk, which was remodeled and relocated to facilitate the recording of books loaned. By this change the library has been made much more convenient and up to date.

Respectfully submitted,
MARGUERITE A. NUTTING.
MARY A. FISK.
C. H. ALLEN.

REPORT OF THE BOARD OF HEALTH

About the usual number of contagious diseases have been reported during the past year, with one death from tuberculosis.

During the past year many samples of the town water have been sent to Concord for analysis. With the exception of two or three, the reports on these have been very good. The State Board of Health claims the town should install a chlorinating plant as soon as possible to be used during the summer months.

There were forty-three deaths during the fiscal year ending January 31, 1929.

Population last census, 2,318.

Death rate per thousand, 18.57.

LEWIS F. SOULE,
Health Officer.

MATERNITY AND INFANCY WORK

A child health conference was held June 19, 1928, at Salem, N. H. The report of the conference is as follows:

Total number of children examined, 43.

Total number found with defects, 28.

Total number found to be 100 per cent, 15.

The defects found were as follows: Enlarged tonsils (watch), 6; advised removal of tonsils, 6; teeth, 6; orthopedic defects, 1; posture 1; circumcision, 1; vaginitis, 1; adhesions of genitalia, 1; skin, 3; underweight, 1.

The following corrections have been made or placed under treatment: adenoids and tonsils removed, 3; teeth, 2; ear, 1; genitalia, 4; posture, 1.

A report on the Schick test which followed the toxin-antitoxin clinic is as follows:

There were 172 children schicked.

There were 134 school children.

There were 38 preschool children.

There were 6 positive reactions.

EUNICE I. HARDY,
Maternity and Infancy Nurse.

REPORT OF THE FIRE DEPARTMENT.

I wish to submit the following report for the Salem Fire Department for the year ending January 31, 1929. The company has answered 54 alarms, 21 of which were still alarms sent in by telephone.

The fire loss for the year has been very small, the only losses of any account being in cases of a fire which occurred in the night outside of the water district and gained considerable headway before being discovered. The fire apparatus is still in first-class condition, and with proper attention should remain so for several years.

The fire alarm system, while it has required some attention at times, has on the whole been very satisfactory, and has been operated efficiently by the local telephone operators. I would recommend the raising of \$1,200 under Article 14 for the maintenance of one permanent man, as this would not add materially to the expenses of the department as it would eliminate the expense of a janitor and also cut down considerably on the cost of chimney fires, which would be attended to with two or three men instead of calling out the whole department; also such work as filling chemicals and general care of the apparatus could be attended to by him.

Respectfully submitted,

C. H. BORCHERS,
Chief.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens of Salem:

I have the honor to submit herewith my second annual report, together with the report of Headmaster Seward French of the High School, Mrs. Thompson, Supervisor of Music, and Miss Thomas, School Nurse.

There were 667 different pupils enrolled in the schools last year, which is 31 more than during the previous year. The number in the elementary schools remained about the same. The increase in attendance was in the Senior High School. The attendance averaged 94.9 per cent of the membership. This figure is about the same as the average for the state. Forty-two pupils completed the work of the eighth grade, and all but one of these entered the High School.

There has been at Salem an increase in the number of pupils in schools each year for five years, except in 1927. The following table shows the increase:

| | |
|------------------------------------|------|
| Number of pupils enrolled in 1924, | 496. |
| Number of pupils enrolled in 1925, | 521. |
| Number of pupils enrolled in 1926, | 612. |
| Number of pupils enrolled in 1927, | 602. |
| Number of pupils enrolled in 1928, | 667. |

While there has been some increase at No. 6 and No. 1, it has been largely at the High School. The figures for the present year are not complete, but the total enrollment will probably be a little less than that of last year.

The cost of education per pupil at Salem, both in the elementary and high school, is less than the average cost per pupil for the state. There are but five other school districts in the entire state that have a lower per capita cost in elementary schools for last year. For the high school the per capita cost is about \$30 less than the state average.

The old aim of education was the accumulation of facts. The aim accepted at the present time is the unfolding and development of character. While the fundamentals are not neglected, more attention is given to training in health,

courtesy, honesty, fair playing and fair living and a rational and sympathetic attitude toward work. These attributes come into play in the daily life of each person, and are necessary to happiness and prosperity. The test of a person now is not how much knowledge he has, but how strong a character he has. The aim of our teachers has been to arouse and stimulate these latent qualities possessed by every normal boy and girl. This has been done not at the expense of the regular curriculum, but supplementary to it.

The education of your children is a partnership in which both the home and the school must be active. Parents are invited to visit the schools and talk with the teachers concerning the work of their children.

Parents must see that their children are punctual and regular in attendance, should examine report cards carefully in order to note the progress of their children and in cases where unsatisfactory conditions are reported should get in touch with the teacher for further information.

Salem has at the present time four one-room schools. These buildings have box stoves and out-house toilet facilities. Jacketed stoves and chemical toilets would greatly improve the present arrangement. One school could be improved each year. The small outlay would be more than justified in the healthful conditions produced.

The scholarship medals for the eighth grade, given by the Board of Trade, were awarded last June as follows:

First, Edith Kelly, gold medal.

Second, Ruth Fiedler, silver medal.

Third, Roberta Bailey, bronze medal.

The enrollment at the High School is increasing. This increase is paralleled with similar increases in other high schools throughout the country. In fact, this increase has extended over the past ten years. No one change is responsible for this change in balance of public school systems. Employment conditions, together with an unwillingness on the part of the employers to use the younger workers, plays a part; the greatly increased prosperity of the American

public, together with the faith of the public in the efficiency of education, has also played a part. And finally and no less important, the changed attitude of education itself toward its educational method has also played a part.

The work of the High School is going on well. The staff is coöperating excellently with the headmaster in conscientious and efficient administration. The general spirit of the school continues excellent; a higher grade of scholarship is required; there is a willingness to do the thing that needs to be done without coercion; students are learning lessons in social and civic relationships and responsibilities no less than in school subjects. Education is not merely an acquisition of facts from books or other sources, but is fundamentally the development of those attitudes, habits and ideals which make for good character.

In closing I wish to commend the teachers for their earnest work and cordial coöperation.

Assuring you of my appreciation of the many courtesies you have extended and the worthy service you have rendered the schools, I am,

Respectfully yours,

WILLIAM J. NELSON,

Superintendent of Schools.

REPORT OF SUPERVISOR OF MUSIC.

To the Superintendent and School Board of Salem:

It is with pleasure I submit my annual report as Supervisor of Music in the Salem schools. In looking back upon the year's work I find in every case co-operation and pleasant classroom associations.

The work in music is being carried on in the usual way. The supervisor visits the larger buildings once a week, the outside schools every two weeks; plans the lesson and presents step by step the music problems throughout the course. The text books are from the New Educational Music Course by Ginn & Co.

The highest mark for the Music Memory Test given in May, following the year's work in musical appreciation, was reached by No. 1 School, with a percentage of 97.88.

There have been three public entertainments in the course of the year. The operetta, "The Pirate's Daughter," by George M. Brown and Keith Crosby Brown, was given by the High School pupils on March 22 and 23. On June 1 the Girls' Glee Club sang the cantata, "May the Maiden," a work based on the ballet music from the opera "Faust" by Gounod and paraphrased by Harvey Worthington Loomis. The Glee Club was assisted by a Male Quartette from the High School and a Boys' Trio from the Junior High. On January 24 and 25, the operetta "Pickles," by Allan Benedict, Gordon Wilson and Donn Crane, was also presented by the High School pupils.

In closing, I wish to thank the Superintendent, School Board and teachers for their interest and support in this work.

Respectfully submitted,

EVA W. THOMPSON.

WOODBURY HIGH SCHOOL.

To the residents of the Town of Salem:

Woodbury High School has given service now for nearly four years, and it is a pleasure to report to people of the town what we are doing and would like to do. This year finds our enrollment approximately the same as last year. I would not prophesy that the school would not be larger, but it now seems that we have reached our normal size unless there is some unforeseen influx of people into town.

Last year at the time of the report, the enrollment was 229 boys and girls against this year's enrollment of 221. In glancing through the enrollment one will see that all of the classes are about the same size. We are now to graduate in 1929 our own graduation class. This means that the members of the class of 1929 have received all of their high school work in Woodbury High School.

The present faculty of the school is as follows:

Headmaster, Seward F. French, English and Sociology.

George V. Perry, Mathematics and Science, Coach of Athletics.

Lester C. Ayers, History and Economics, Assistant Coach.

Mrs. Mariam T. Smith, Latin and French.

Dorothy M. Guild, Commerce and Business.

Marion A. Turner, Domestic Arts.

Mary A. Fisk, Junior High Subjects, English IX, History IX.

Hazel M. Bullis, Junior High Subjects, English X.

The present faculty is busy every period of the day. When not in actual class work they are helping those pupils who desire special attention. Many of the pupils avail themselves of the opportunity of special help during their study periods.

The records in the headmaster's office show the following enrollment by classes and groups of boys and girls:

| | |
|---------------------|--------------|
| Junior High School, | Class I, 41 |
| | Class II, 36 |

| | |
|---------------------|---------------|
| Senior High School, | Class III, 42 |
| | Class IV, 32 |
| | Class V, 35 |
| | Class VI, 35 |

| | |
|--------|-----|
| Total, | 221 |
|--------|-----|

Of this total enrollment, the number leaving school thus far is 13.

The following enrollment is as recorded in the school register for January 25, 1929:

| | |
|-------------------------------------|-----|
| Number of boys in Senior Class, | 13 |
| Number of girls in Senior Class, | 22 |
| Number of boys in Junior Class, | 16 |

All classes in the school are very reasonable in size this year. Certain classes have a large number in them, but this is not the rule. Such a condition is a great improvement over last year. By the selecting of study rooms all pupils have home room desks, and we now use the armchairs for class work only.

The scholastic standing of the school is improving each year. This year we became not only an approved school in the State of New Hampshire, but were admitted to membership in the New England College Certificate Board list, which will aid our students much in entering colleges without examination, if they are approved in their work from Woodbury High School.

All departments are doing the usual fine work. The school is doing its best to develop health standards of the highest degree.

The outside activities of the school are about the same, including Dramatics, Prize Speaking, Athletics, both boys' and girls', and then, also, the club work for both boys and girls. Mr. Perry has continued the fine work of his predecessor and

produced a fine team in football; equally as fine teams will represent the school in other sports. Miss Turner is working with the girls' basketball, and the sport has been recognized as a major sport for the girls. The need of a field is ever the problem. It is hoped that the loyal people of Salem will feel that they can meet this problem in the near future. Some money has already been given for the purchase of a field.

The most urgent need for the coming year is reference books. We need these very much. Without the proper books the class work is held up. It will be necessary to replace old books, also.

In concluding this report it is a pleasure to say that during the three years and a half of service to the people of Salem, the past year has been by far the happiest and most pleasant. There has seemed to develop a wonderful spirit of support, and in all cases much encouragement has been given. Continued support on the part of the parents, the School Board, the faculty and Superintendent W. J. Nelson will mean much in continuing the progress of the past.

Many more parents have met me at the office this year, and we have been able to work for the best interests of their children. I am ready always to help in any way possible.

SEWARD F. FRENCH,
Headmaster.
